

## ALKINA CELLAR LIST.

Our team is full of wine nerds, cork dorks and amateur geologists, so we decided to funnel all this passion into a short cellar list. In here you will find rarities from around the globe, as well as beauties from our sister wineries in Uruguay, Argentina, California and Italy.

The list isn't exhaustive or dogmatic, but it does champion wines that speak of their place or terroir. In so doing, they will be farmed sensitively and without synthetic chemicals in the vineyard. They are also nursed into bottles by our friends, heroes and the true pioneers of terroir wines all around the world.

All these growers practise organic and/or biodynamic farming and where we know they are certified you'll see (*O/B*) indicated. Those representing Alejandro Bulgheroni Family Vineyards are designated (*ABFV*).

Please note that we either can't get or hold much stock, so this list will change regularly as wines move in and out of the cellar. All bottles are available for House and Cottage guests, as well as visitors during events and lunches.

**Please order what you would like before or on arrival, or from the Tasting Room during opening hours.**

## WINES FROM AROUND YOU.

Alkina farms 43 hectares of vines here in Greenock. All our wines are grown and made on this site. The whole vineyard is farmed organically and biodynamically with NASAA certification for all blocks achieved in 2022. Magnums are available.

## WINES FROM PEDRO PARRA.

What can we say about these wines from our great friend and collaborator, Pedro Parra? Having consulted to some of the world's great names (Commando G, Roulot, Liger-Belair, Marco Marengo and others), Pedro decided a few years back to apply what he had learnt to the coastal region of Itata, in Southern Chile. These are old vine Cinsault and Pais planted on granitic soil, with amazing freshness, tension and minerality.
